

CUB PACK REPORT

July, 1950

As from the 11th July, the Pack is closed and any other boys wishing to join will have their names put on the waiting-list_

Monday 12th both Packs combined and went for the day to Reid's hill where we made a Council Rock_ During the lunch break at the Quarries, Mr_ Stafford kindly took the Packs over and showed them how the Quarries worked, much to everyone's enjoyment_

While at the Council Rock it was decided to have a Camp Fire one Saturday_ Saturday 24th was the day arranged for it_ The Packs meet at 4 Holyrood ave. bringing with them wood and lamps besides food and clothing_ Mr_ Stevens and Mr. Watts arrived with a car and we were able to stack a number of the heavy packs in it. These were left for us at Reid's Garage where we found a quantity of wood for our fire. We all had a wonderful time, the leaders doing the main of the cooking as St_ Aidan's had Church Parade the next morning and we were trying to keep our uniforms clean_ The time went all too quickly and on coming home, were met by Mr_ Stafford, Mr. Sell and Mr. & Mrs. Jeffrey We were all taken home per cars or ~~in~~ truck, thus putting a perfect finish to what we thought had been a first-class outing.

Our thanks to all who helped us on that day in making things so much easier for us_

At Church Parade the next morning there was a good attendance and we all managed to look spick and span_

At the Picture Night on 30th June there was a good number of Cubs from both Packs and the films were thoroughly enjoyed by all_

Approached the Vestry about space for the Pack to learn that nothing can be done until the shed is finished at the back. Fully appreciating the position and difficulties existing at present, it is not very satisfactory for the Pack, for it means that the standard will have to suffer as we will not be able to have all the equipment which is necessary, as there is no where to house it_

We will, however, make enquiries to see if some of our equipment could be left at the home of a Cub who lives near at hand.

There is an Insurance Company who will insure Cubs in the case of accidents. If possible, provided the Committee is agreeable, I would like to have the Pack insured_

A letter requesting a link-up with a Group in Strathmore, Scotland has been written to the Secretary, Mr_ Sanders, but to-date nothing has been heard_

Attached is a copy of the letter forwarded_

The following equipment is required in the Pack:-

1 First-Aid outfit
1 Basket Ball

1 Log Book
1 Photo Album

Wangley.
