

1st STANTHMORE TROOP

MONTHLY REPORT

1-8-51

The troop has been operating quite well over the past month. Although we have been without our Scoutmaster due to the fact that he has been tied up with the inter-state hockey team.

For the past three weeks we have been concentrating mainly on tenderfoot work to try and get every member of the troop invested. At present we have about half the chaps not invested but within a few weeks all of these should be ready.

Due mainly to my inability to take the chaps out on a Saturday there have been no other parades but in future I imagine these difficulties will be overcome.

Also the size of hall limits our scope a great deal in respect of work and games.

W. Collins
